IT'S ALL ABOUT THE EXPERIENCE TRANSFER TO DELVAL

▶ delval.edu/transfer

Easy, No Surprises Transfer

DelVal and LCCC have a partner agreement allowing you to make the most of your associate degree, paving the way toward your bachelor's degree.

ALL ACCEPTED FULL-TIME TRANSFER STUDENTS RECEIVE AT LEAST \$15,000 IN SCHOLARSHIP.

ONE OF THE BEST SCHOOLS FOR TRANSFERS

DelVal has been on Phi Theta Kappa's Transfer Honor Roll for the past six years!

FLEXIBLE OPTIONS: FULL- OR PART-TIME STUDY

Transfer here with a schedule that works for you.

REAL-WORLD, HANDS-ON EXPERIENCE

Learn about our award winning E360 Program.

PERSONAL ATTENTION

Our dedicated transfer counselor can help you through every step of the admission process.

A SMALL, CARING LEARNING COMMUNITY

14:1 student to faculty ratio means you get personal attention and mentoring.

700 East Butler Ave.,
Doylestown, PA 18901

We wish you success at LCCC and beyond and look forward to working with you as you achieve your dreams!

Whether this is your first semester or fourth, whether you are a full-time or part-time student, and whether you have come to us directly from high school or have returned after a break, this transfer guide will help you get from here . . . to there.

Planning ahead and making good decisions early will help you better prepare for a seamless transfer without loss of time, credit and money. Academic Advisors are available to help you define your long- and short-term goals and assist with your academic planning. Transfer services, events and resources are designed to help you navigate the steps and the decision-making process.

Steps to a Successful Transfer

LCCC academic advisors have expertise in helping you clarify and prioritize the factors you may want to consider in your college search.

Know Yourself and Plan Ahead!

Plan ahead and make good decisions early in your college career, so you'll be ready to transfer.

- Define your interests and career goals and work with your academic advisor to make decisions about major, career, and academic path.
- Utilize FOCUS 2, the free online career exploration system.
- Attend transfer fairs and college visits.
- Learn about LCCC's transfer agreements and guides
- Attend the job fair and discuss career and major decisions with your faculty

More resources are described at www.lccc.edu/transferservices.

Choose the Right Institution

Consider these when choosing where to apply: location, size, cost, services, activities, majors, housing.

Start with a list of what is most important to you when selecting your transfer schools. Use campus and online resources to search for colleges. Think outside of the box and don't limit yourself.

Investigate Your Choices

- Take advantage of LCCC's college fairs and transfer days.
- Visit schools!
- Meet with the transfer admissions counselor, an academic advisor and financial aid/scholarship officer if necessary.
- Attend an open house, which usually includes general information sessions, tours of campus, class visits and overnight stays. Schedule an individual visit as well.

Get Organized

Once you have your choices narrowed down:

- Complete a letter of intent, if applicable, before earning 30 credits.
- Work with your advisor and transfer schools to make sure you are taking the right courses for your LCCC degree and transfer programs.
- Keep your GPA up to qualify for admission to competitive programs and scholarships.
- Note deadlines for each school's admission application, financial aid, scholarships and housing, etc.
- Read application requirements carefully and be sure to proofread what you submit.
- Request official transcripts from LCCC and any other college attended, as well as high school transcripts when required.
- Complete financial aid and scholarship applications.
- Allow extra time to request faculty recommendations and to write your essays.
- Visit Educational Support Services for assistance with essays, if needed.

Stay Organized

Once the offers start coming, stay organized to respond to schools in a timely manner. When you have made your final decision (congratulations!) pay attention to next steps and deadlines regarding deposits, registration, orientation, etc. Don't forget to apply for graduation from LCCC. Finally, remember to send your final LCCC transcript at the end of the semester with your final grades.

FIND YOUR PEOPLE. FORGE YOUR PATH.

for your
SUCCESS!**

Turning your associate degree into a **bachelor's degree** has never been more accessible. Thanks to our partnership the process of transferring credits from LCCC to Central Penn College is quick and easy.

Financial aid and scholarships are available to those who qualify.

CENTRAL PENN
COLLEGE

centralpenn.edu/lccc

Choosing a Four-Year College or University

Continuing your education is an investment into your future. You know that, but you may still wonder how you'll pay for your bachelor's degree. You've already made a good financial decision by starting at LCCC. By remaining in good standing and achieving high grades, you may qualify for merit-based scholarships in addition to need-based financial aid.

To be considered for federal, state, and sometimes institutional aid, ALWAYS complete the Free Application for Federal Student Aid, even if you are not sure you'll qualify.

In addition to federal and state aid, loans are available to students. There are different requirements depending on the loan program, so be sure to contact the financial aid office at the four-year school(s) you intend to apply to for more information.

Many colleges and universities offer special transfer scholarships with a wide range of amounts. In addition, there are other scholarships and special grants to students who meet the eligibility requirements.

Always check with the Financial Aid Office and/or website of the school(s) you apply to. Transfer admission representatives may also provide tips and information about the financial aid process and scholarships you might qualify for.

See lccc.edu/paying-for-college/scholarships/transfer-scholarships/ for more information.

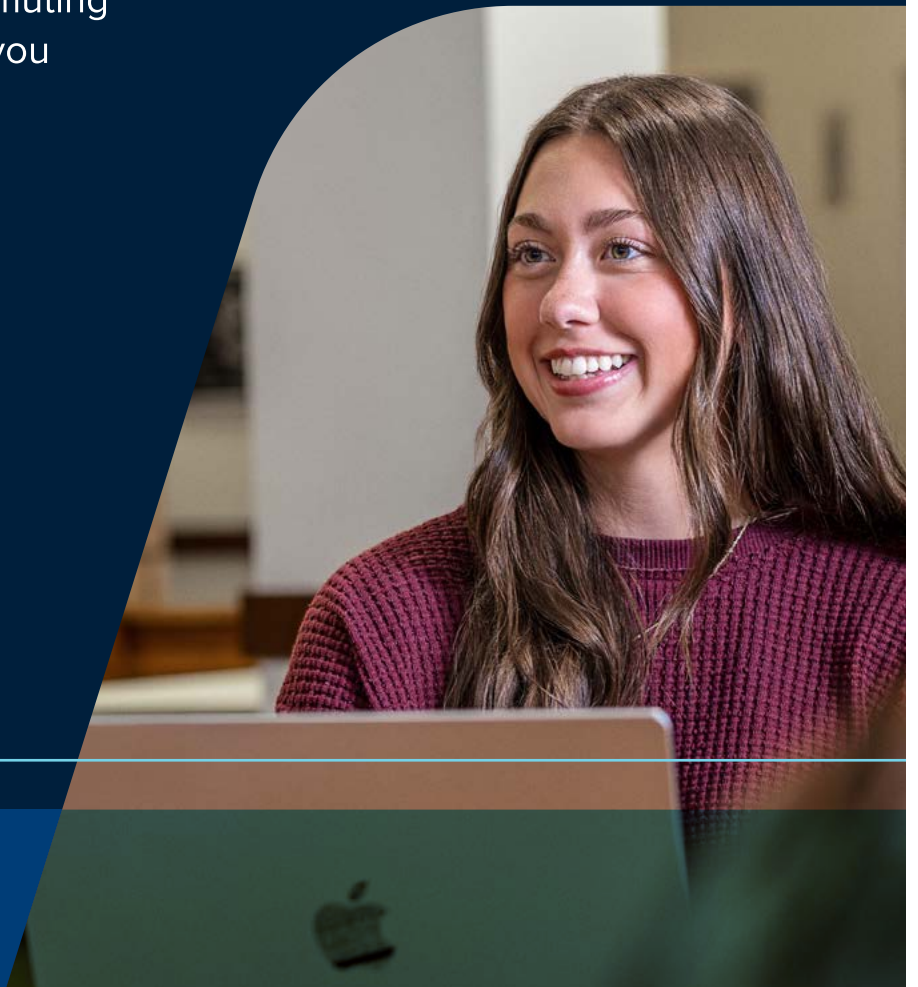

Wherever You're at, We Are Too.

TRANSFERRING DOESN'T MEAN STARTING OVER. IT MEANS MOVING FORWARD — WITH SUPPORT THAT FITS YOUR LIFE.

At PennWest University, we know transfer students aren't looking for hype. You're looking for clarity, flexibility, and a path that respects the work you've already done. Whether you're balancing a job, family responsibilities, or commuting from home, PennWest meets you where you are — with transfer-friendly pathways, flexible course options, and real people ready to help you finish strong.

Financing Your Bachelor's Degree

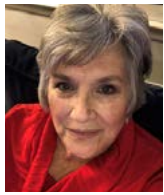

Consider:

- Does the institution offer the major you are considering?
- What is the geographic location you prefer?
- What are the admissions requirements?
- What is the cost of tuition and fees?
- Are financial aid opportunities and scholarships available?
- What kind of support services are available to students, such as tutoring, counseling, disability support, health-related concerns, etc.?
- Do you want an urban or rural setting?
- Do you prefer a large or small campus?
- Are you considering completing your bachelor's degree online?
- What is the reputation of the institution?
- Is the college accredited?
- What is the student/faculty ratio?
- Is special help available if needed?
- What size student body are you looking for?
- Do you want to live on or off campus? Do you want guaranteed housing for transfers?
- Are you interested in fraternity/sorority life?
- Do you prefer a private, public or religious college?
- Are there particular sports or activities you wish to participate in?

What else is important to YOU?

Is College Worth the Cost?

ILONA MCCOGNEY, Academic Advisor

With the rising costs of a college education, the tightening of federal, state, and local budgets, the frequent appearance of media and news reports questioning the worth of a college education compared to the burden of student debt, and waning public confidence in the value of higher education, many prospective college students and transfer students are left wondering if all the time, effort, and cash they're devoting to their degrees will pay off in the end. Is college worth the cost? While college is not the only path to opportunity or success, and nothing, not even an elite college degree, guarantees foolproof protection from financial strain, the answer from many reliable data and research sources is still an encouraging "YES," Education still PAYS!

According to the College Board, for example, in their 2024 report called "Education Pays," individuals with a college degree earn more on average, fare better in the job market, are more likely to receive retirement benefits and employer-provided health insurance, and risk lower unemployment rates, and lower poverty rates than non-degree holders. Likewise, the 2025 BLS (Bureau of Labor Statistics) "Education Pays" report clearly highlights the consistent correlation between education level, earnings, and unemployment rate – workers' earnings increase as educational attainment rises.: the median weekly earnings for workers with a high school degree was \$930, an Associate's degree, \$1,099, and a Bachelor's degree, \$1,543, while at the same time their unemployment rate was 4.2%, 2.8% and 2.5 % respectively. In general, the higher your level of education, the higher your income, and the lower your risk of unemployment are likely to be.

...the consistent correlation between education level, earnings, and unemployment rate – workers' earnings increase as educational attainment rises.

Further incentive to invest in a college degree that will pay off over time is offered by Georgetown University's Center on Education and the Workforce report, *The Major Payoff*, 2025: "Over the course of a career, the average worker with a bachelor's degree not only earns more than the average worker with a high school diploma alone but also benefits from a lower likelihood of unemployment.... median earnings for a bachelor's degree are \$81,000 – translating to a 70 percent earnings premium above the median earnings of workers with a high school diploma alone." And, their *College Payoff 2025*, *Key Findings* reports that "a Bachelor's degree is worth \$2.8 million on average over a lifetime, 31% more than those with an Associate's degree and 84 percent more than those with just a high school diploma." BestColleges.com, an education research website, claims that "Today, 81% of 'Good Jobs' (as defined primarily by median income and benefits) go to workers with some amount of postsecondary education, and that share is expected to increase to 85% because, "in 2031, the economy will demand a workforce equipped with more education and training than it does now."

But the benefits of a college degree aren't only economic. College Board, *Big Future* adds: "Besides paving a path to higher salaries and better career opportunities, college is a great way to stimulate your personal growth and expand your professional network."

The PPIC (Public Policy Institute of California) found that "According to national survey data, 73% of those with a bachelor's degree agree their education was worth the cost. A 2024 FORBES report, *Is a College Degree Worth It?*" points out that, "Despite high costs and low public confidence, college degrees have statistically demonstrated long term benefits, including higher earnings potential and lower unemployment rates.... other 'pros' being "more career options, network support, personal growth." And, since "employers consistently rank critical thinking, communication, and the ability to collaborate across differences," as valuable and transferable skills, a college experience can provide many opportunities to acquire them.

And if you're worried that AI will make your hard-earned college degree obsolete, an abc NEWS forecast on AI and job disruption reminds us that "Going back centuries, technological breakthroughs have typically created more jobs than they've destroyed" Despite dire predictions of massive job loss due to AI, "by contrast, a 2025 World Economic Forum survey determined that "overall, the technology would help create 170 million jobs across the globe over the next five years, far exceeding 92 million jobs lost." (abc NEWS) ED Source in "College and Careers" points out that "the college experience should be an opportunity for students to develop interpersonal skills, research capabilities, and critical thinking." They add, AI can do analysis, but it still requires that human intelligence to be in the driver's seat when it comes to, "how do you use this analysis that is being driven by AI?" College can help you answer that question and meet those challenges with education, experience, training and an eye to the future.

So.... Whether you've finished 15, 30, 45, or all 60+ credits of an associate degree here at LCCC, CONGRATULATIONS! You're

already on your way to achieving your career and educational goals – YOUR FUTURE...and you've already saved thousands of dollars toward the cost of a higher degree.

START HERE – KEEP GOING!

ONE MOVE CLOSER

TO FINISHING YOUR DEGREE

Virtual Transfer Session

One-On-One Appointments

Meet with a transfer counselor and a transfer student. These appointments are a great way to learn about the transfer process from your home. You'll learn about the application process, credit evaluations, and more. You'll have the chance to ask your specific questions about transferring to KU.

Transfer Friday

On-Campus • May 1, 2026

Meet representatives from student service offices to learn how we support transfer students. You'll hear an admissions presentation, tour our campus, and have lunch.

www.kutztown.edu/transfer

KUTZTOWN
UNIVERSITY

The LCCC Transfer Fair and College Visit Program

Consider asking the transfer admissions counselor these questions:

- Do you offer my major and if so, please tell me about it.
- Are there special entrance requirements such as prerequisite courses or a minimum GPA?
- What are the admissions deadlines? What should I be doing now?
- Are high school transcripts and SAT scores used in making the admissions decision?
- Do you offer special scholarships for transfer students?
- Is there anything I need to know about selecting my courses so I am assured they will transfer?
- Do you offer an Honors program?
- What is your transfer credit policy?
- How many transfer students are accepted each year?
- Are there special programs or registration dates for transfer students? Are there any programs not open to transfer students?
- Are faculty available to meet with students?
- Is on-campus housing available to transfer students? What opportunities are available for off-campus housing?
- Is there job placement assistance after graduation?
- What support services and student activities are available?
- Is credit granted for CLEP, life experience or cooperative education?
- Do you have any transfer open houses coming up? Who do you recommend I meet with when I'm on your campus?
- How can I benefit from scholarship, admission and/or transfer agreements because of my associate degree?

What other questions do YOU have?

Alvernia[®]
University

Transfers *Made Easy*

Alvernia University understands that transfer students have unique needs.

At Alvernia you'll receive:

- Flexible class schedules offered on campus or online
- A personalized transfer pathway with dedicated advisor
- A supportive culture of care network
- A degree from a nationally recognized doctoral university

**Get Started
Today:**

Alvernia.edu

The Important College Visit

DeSales

East Stroudsburg

Kutztown

Take advantage of open houses, campus tours, and other opportunities to visit college campuses during your decision-making process.

Helpful Tips:

- Contact the Admissions Office and register for an open house, campus tour or to make an individual admissions appointment.
- Dress appropriately. The campus tour could involve hills, stairs, puddles, etc. You'll also want to be aware of the impression you'll leave with those you meet during the day.
- Prepare a list of questions and decide who you want to answer them. For example, you would want to ask the transfer admissions representative about application requirements, the financial aid officer about scholarships, and a student about college life, cafeteria food and parking.
- Attend a class, meal, game or club meeting if possible to get a real student's eye view. Contact the Admissions Office to see if they can help with the arrangements and permission if needed.
- Put your phone away unless you are taking pictures or making quick notes! Those who are meeting with you will remember, and may note, if you don't seem to be interested in what they have to share.
- Can't get there or considering an online institution? Many colleges and universities offer virtual campus tours.

Consider the fit during and after your visit.

Reflect on what impressed you the most and the least, as well as other questions you have that came up or weren't answered. Keeping notes or a journal of these visits and your impressions may come in handy later if memories begin to blend together.

Transfer Agreements

Course-to-Course Articulation

Course-to-course articulation, also known as course equivalencies, is when one college or university compares the content of courses to the content of courses at another college or university and determines transferability.

- LCCC students can check out how courses transfer to more than 50 schools at lccc.edu/academics/academic-advising/transfer-to-a-four-year-school/transfer-guides-by-school/ under “Course Equivalencies, Transfer Guides and Agreements.”

Core-to-Core (or General Education to General Education) Articulation

Core-to-core agreements allow a student to use general education courses from the community college to be applied to, or to fulfill general education or “core” requirements at a four-year college or university. Agreements differ so it is important to learn the details. In most cases, if a student earns an appropriate associate degree (usually an A.A. or A.S.), the four-year institution’s core requirements are satisfied except for core courses required by the intended major and possibly for other requirements that reflect the specific values of the transfer institution (e.g., religion, foreign language).

LCCC has core-to-core agreements with several colleges and universities including:

Albright College
Alvernia University
Arcadia University
Bellevue University
Cedar Crest College
Chestnut Hill College
Delaware Valley University
DeSales University
Excelsior College
Kutztown University
LaSalle University
Lock Haven University
Moravian University
Southern New Hampshire University
Temple University
West Chester University

Program-to-Program Agreements

(also known as Program-Specific Agreements or 2+2s)

A program-to-program or program-specific agreement is one in which an entire curriculum or program of study is accepted from one institution for transfer into another institution. This type of agreement provides a graduate of a specific associate degree advanced standing in a specific bachelor degree.

LCCC has more than 500 program-to-program pathway opportunities for our A.A., A.S. and A.A.S. degrees with 35+ colleges and universities including:

Albright College
American College of Education
Aspen University
Alvernia University
Carlow University
Cedar Crest College
Central Penn College
Cheyney University
Commonwealth (Bloomsburg, Lock Haven, Mansfield)
Drexel University
East Stroudsburg University
Excelsior College
Grand Canyon University
Harrisburg University
Indiana University
Kutztown University
LaSalle University
Lincoln University
Marywood University
Messiah University
Millersville University
Moravian University
Mount Vernon Nazarene University
Muhlenberg College School of Continuing Studies
Penn West (California, Clarion, Edinboro)
Penn State University Colleges
Shippensburg University
Slippery Rock University
Thomas Edison State University
Upper Iowa University
West Chester University
Western Governors University
Wilkes University
York College of Pennsylvania

Dual Admissions Agreements

A dual admissions agreement is a cooperative partnership between two institutions that facilitates the admission process for students interested in pursuing a bachelor's degree. The agreement typically prepares students to transfer their associate degree credits into a bachelor's degree program with no loss of time or money, providing the student maintains the required academic standard and follows the requirements of a program parallel to the desired transfer program. Often there are also financial incentives and support services associated with each program.

LCCC has dual admission agreements with the following:

Albright College
Alvernia University
Arcadia University
Bloomsburg University
Cedar Crest College
Central Penn College
Chestnut Hill College
Delaware Valley University
Drexel University
East Stroudsburg University
Kutztown University
LaSalle University
Lebanon Valley College
Moravian University
Susquehanna University
Temple University
Wilmington University

Letters of Intent

Many of LCCC's dual admissions agreements require that students complete a letter of intent to indicate their plan to transfer upon the completion of their associate degree. The forms vary from school to school but generally ask when the student will be completing and transferring and their anticipated program of study. Generally, the letter of intent must be completed before 30 college credits are earned.

Letters of intent are accessible on www.lccc.edu/transferservices for the following colleges and universities:

Albright College	East Stroudsburg University
Alvernia University	Kutztown University
Arcadia University	LaSalle University
Bloomsburg University	Moravian University
Cedar Crest College	Muhlenberg College School
Central Penn College	of Continuing Studies
Chestnut Hill College	Susquehanna University
Delaware Valley University	Temple University

Transfer agreements, also known as articulation agreements, are formal agreements between LCCC and other colleges and universities to allow the transfer and application of credits, courses and programs toward the degree at another college or university. LCCC has several different types of agreements.

Pennsylvania Statewide Transfer and Articulation Center (PA TRAC)

PA TRAC is an online, "one-stop shop" for transfer information related to Pennsylvania's statewide transfer and articulation system. You'll find searchable databases of course equivalencies, transfer agreements, information about transfer policies, college profiles and transfer tips for the participating institutions, including the PA community colleges, 14 state system universities and five private colleges and universities. See www.pacollegetransfer.net.

For more information please see:

lccc.edu/academics/academic-advising/transfer-to-a-four-year-school/

If undecided about your major, it's best to take courses that satisfy the general education requirements and prerequisite courses for majors you might be considering. For example, if you are interested in a science-related major, you'll want to start math and science courses while completing English, social science and humanities. If you're thinking about a business-related major, focus on math, economics, accounting and English courses. It's best to work closely with an advisor to determine which courses to take within these requirements.

Explore LCCC and find your future.

My Transfer Fair Experience

STEVEN HANSON, Psychology Major 2026

Hi! My name is Steven. I'm from Whitehall, local to Lehigh Carbon Community College. As a senior in high school, I considered several colleges and

universities but ultimately chose to go to LCCC and applied for the Honors Scholars program.

I originally planned to become a pilot, but after some reflection, I chose to major in psychology, to get a degree in counseling or social work. At LCCC, I am a

student worker, involved in our school's psychology club. I've worked in retail as my primary job for several years and have some experience in working with children with intellectual disabilities, in a field known as applied behavior analysis.

Going into the transfer fair, I wasn't sure what to expect. I knew I wanted to find an affordable option to continue my education, maybe even through a combined master's program. However, the number of options that opened to me by attending this event are endless. I was initially pretty settled on applying

to a local university which is affordable and has the degree I'm interested in studying. Although that remains among my top options, I now have my sights set somewhere else: Temple!

I learned about Temple at the transfer fair, meeting with a very enthusiastic representative of theirs. We explored some of their programs and what could work for me. After doing more research,

I realized, because of the scholarships I would qualify for, Temple was completely within reason for me. Both my friend and I are now exploring options to live affordably off-campus in student housing, just a short

walk away from our classes and we can keep the cost low. Not only will this be a great academic experience, but this could also open the door to more internship opportunities as well as get a genuine college experience, right in the heart of Philly. I'm excited to see where this journey takes me! The transfer fair opened the door to options I never thought would be within my reach, even as a high-achieving student. I highly recommend attending, even if just to browse. You never know what you might find.

I'm Unsure of My Major. What Should I Take?

Top 10 Transfer Tips

- 1.** Meet with your academic advisor to discuss your transfer plans **EARLY** in your LCCC experience.
- 2.** Choose a college major and decide which schools you want to apply to as soon as possible.
- 3.** Complete dual admissions letters of intent, if applicable.
- 4.** Check the transferability of your courses **BEFORE** you take them.
- 5.** Understand how your LCCC courses fit into your four-year program to avoid taking the wrong courses or excessive electives.
- 6.** Take advantage of transfer workshops and programs such as transfer fairs and information sessions to get important information about the transfer process.
- 7.** Pay attention to admissions requirements and deadlines and be prepared to meet them.
- 8.** Make scholarship search an ongoing process.
- 9. Visit Visit Visit!** Check out the campus, classrooms, technology, library, dorms. See how YOU fit. Schedule an appointment with a transfer counselor in the Admissions Office and request a campus tour.
- 10.** Maintain the best GPA you can. Admission to the school of your choice and major may depend on it.

**WHEN YOU CHOOSE TEMPLE,
REAL SUCCESS FOLLOWS.**

Navigating the Costs of Higher Education

The links listed at right are provided for your convenience and do not imply an endorsement. Lehigh Carbon Community College makes no warranties or a representation, expressed or implied, and assumes no legal liability for their accuracy, completeness of the information, or services provided on non-local web pages.

There is no doubt that college is more expensive than ever before, and it can truly be an overwhelming deterrent for prospective students who wish to continue their education but are not sure how to navigate the surmounting costs of higher education. Let these top 10 websites put your financial worries at ease as you bag scholarships, grants and financial aid!

Fastweb

www.fastweb.com

Ranked as the #1 site for your connection to scholarships, colleges, and financial aid, Fastweb has it all! You can target scholarships based on your strengths, interests, and skills, find resources to help you with financial aid, discover the perfect college for your interests and budgets, and search among 10,000 part-time jobs.

Cappex

www.cappex.com

Serves over 11 million students with over 3,000 college profiles and has a staggering \$11 billion in scholarships.

Unigo

www.unigo.com

Offers 14 scholarships totaling over \$3.6 million.

Scholarships.com

www.scholarships.com

Around since 1999, this site only takes minutes to create an account and get you on the path to saving money for college.

Peterson's

www.petersons.com

For every career, there is a test. Peterson's offers over 150 tests, from admissions to licensure exams, serving over 500,000 students annually.

Chegg

www.chegg.com

Primarily used for acquiring and selling college textbooks, Chegg also offers homework help, test preparation, and applications for over 25,000 scholarships.

Niche

www.niche.com/colleges/scholarships

In addition to help with scholarships, Niche rates the atmosphere of colleges and their "personalities." After all, you want to make sure your college is a match for your individuality.

BrokeScholar

www.brokescholar.com

It is 100% free with over \$3 million in scholarships and no personal information is required.

CareerOneStop

www.careeronestop.org/toolkit/training/find-scholarships.aspx

Contains a wealth of great information, including over 8,000 scholarships. User-friendly filters help make the search based on your needs all the easier.

WE SEE YOU

At Cedar Crest College, we're here to help you shape your future, whether you're finishing your Bachelor's degree or looking to take it to a whole new level.

YOU SUCCEED HERE

Transferring to Cedar Crest College is ideal when you want to earn a four-year degree after completing your two-year degree. We make the process easy and rewarding. Cedar Crest has lowered tuition for our adult programs and increased scholarships for our Transfer students. Talk with your counselor to find out what this means for you.

OVER 52 UNDERGRADUATE MAJORS, INCLUDING

- Accounting
- Business Administration
- Computer Science
- Criminal Justice
- Cyber Security

Scan here to learn more!

Stay on course!

0-15 Credits

- Define your career goals and map out a plan.
- Explore resources such as FOCUS 2, an online career exploration program, and the transfer web page.
- Attend free transfer workshops, fairs and college visit events.
- Explore student activities and athletic opportunities, which can enhance your college experience and help you decide which activities you want at your four-year school.

15-30 Credits

- Meet with your advisor to stay on track.
- Continue to gather information and attend transfer fairs and college visit programs.
- Develop a “short list” of schools.
- Visit the schools, attend open houses, campus tours, financial aid sessions and an admissions interview.
- Before earning 30 credits, submit letters of intent if planning to transfer to any of the following institutions:

Albright College	East Stroudsburg University
Alvernia University	Kutztown University
Arcadia University	LaSalle University
Bloomsburg University	Muhlenberg College School of
Cedar Crest College	Continuing Studies
Central Penn College	Temple University
Delaware Valley University	

- Apply for financial aid and research transfer scholarships.

31-45 Credits

- Meet application deadlines.
- Request faculty recommendations, if required or recommended.
- Have official transcripts sent from LCCC, from any previous colleges you have attended and, if necessary, from your high school. Be sure your transcript reflects your most recent grades earned.

46-61 Credits

- Apply for graduation before the deadline.
- If you have not already done so, submit your applications. Respond to acceptances by the deadlines.
- Review credit evaluations carefully.
- Receive and understand your financial aid package. Contact the university or college financial aid office with questions.
- If you receive academic accommodations, visit Disability Support Services.
- Have a final transcript sent to your transfer institution to include the grades of your final semester at LCCC.

Your Transfer Timeline

Redefine Future

At Muhlenberg, you **matter**.
You **belong**. And you'll **thrive**.

Muhlenberg welcomes transfer students who want to complete their education in a challenging, supportive environment. All full-time, traditional transfer applicants are considered for merit scholarships and eligible to apply for need-based aid. Transfer agreements allow adult learners to complete an accelerated bachelor's degree in just 16 courses.

CHALLENGE | SUPPORT | IMPACT | BELONGING

Reasons for Taking Honors Courses at LCCC

Challenge yourself academically.

Taking an honors-level course at LCCC exposes you to the level of rigor and academic skills you will need at a selective college or university.

Get the most for your money.

Community college is less expensive than four-year colleges and you can take honors courses that will require you to read, think, calculate, and/or write at a higher level.

Show your transfer institution that you took advantage of opportunities.

It might seem like it would be better to get an A in a regular course than a B+ in an honors course, but transfer programs at more selective colleges and universities will value the rigor of your education more than your GPA.

Get to know your professors.

Working at an honors level gives you more contact with your professors. That not only enriches your experience, it gives them a deeper understanding of you and your skills, which will translate into stronger letters of recommendation.

Complete honors level coursework while at LCCC.

Students may take honors section courses or complete honors projects by developing a project and working with their faculty in another class to make it honors level. Students who complete five or more honors level courses with the grade of B- or better may graduate with the distinction of College Honors. You must submit a Letter of Intent and maintain a 3.0 GPA and complete a minimum of 15 credits of honors level work prior to graduation.

The College Honors Letter of Intent is available in the Advising Office (SSC 124) or on the website at: <https://www.lccc.edu/academics/college-honors-program/>

Choosing a Major

Things to Consider:

YOUR SKILLS

What do you do well? What would you like to learn to do? Some things come naturally to some people and some things have to be learned. Make a list of your skills to help you evaluate which major might be best for you.

YOUR INTERESTS

What do you enjoy doing in your spare time? Your interests are often the things that drive you to learn and grow. Make a list of some of your interests, and then see what majors match up with those interests.

YOUR VALUES

Knowing what you value can help you when you choose a major because many majors center around certain values.

YOUR PERSONALITY

Certain personality types tend to work in certain occupations. Your personality also helps determine which types of environments you prefer. Evaluate your personality type, which you can do on "FOCUS 2," and see what sorts of occupations your type frequently enters. Then check out majors that will lead you toward those occupations.

STAY ON TRACK WITH OUR EASY 4-STEP ADMISSION CHECKLIST

GET STARTED NOW – WE’RE READY WHEN YOU ARE

1

APPLY TO FRANKLIN UNIVERSITY

Applications are free, fast and accepted year-round. Submit your application online at apply.franklin.edu. You will receive a confirmation email and an admissions advisor will reach out to you via phone or email.

2

TRANSFER YOUR CREDITS

Transfer up to 94 credits to save time and money toward your bachelor’s degree. With your consent, we can attempt to request transcripts on your behalf. If we are unable to obtain a transcript for you, an admissions advisor will contact you to provide details on which transcripts you will need to request. Submit official, sealed transcripts to **Franklin University, 201 S. Grant Ave, Columbus, OH 43215, ATTN: Transfer and Articulation** or transcripts@franklin.edu.

3

START THINKING ABOUT FINANCING OPTIONS

Be sure to consider all of your options, from federal financial aid to scholarships and employer tuition reimbursement, to minimize the overall cost of your education. Visit franklin.edu/finaid for more information on financing options, the FAFSA process and financial aid eligibility or email Student Financial Services at sfs@franklin.edu with specific questions.

4

REGISTER FOR CLASSES

At your Registration Appointment, you’ll select first-term courses, get final questions answered and get a strong start on your Franklin experience. Request an appointment by visiting franklin.edu/appt-transfer.

Franklin University is accredited by the Higher Learning Commission and holds specialized accreditations for specific academic programs through the International Accreditation Council for Business Education, the Commission on Collegiate Nursing Education, the Council for the Accreditation of Educator Preparation and the Commission on Accreditation of Health Informatics and Information Management Education.

Getting Accepted Into a Selective Health Care Program

How can I rise to the top in an extremely competitive applicant pool?

This question is often not easy to answer and encompasses many factors. Of course one of the main components in being accepted is your academic performance, especially in the science courses. However, many other factors also contribute to acceptance rates. For example the applicant pool greatly impacts the student's ability to be accepted into selective health care programs. Applicants might have the same GPA, similar scores on standardized tests and one will be accepted and the other one not. This might be the result of large numbers of applicants.

Here are a few suggestions.

- Apply to numerous programs and if possible, apply to programs in other states. Often the schools want a diverse class of students from various locations. However, even applying to two or three programs within the same geographical area will increase your chances of being accepted.
- Second, focus on your science classes. You want the highest possible grade the first time you take anatomy and physiology. Don't register for 17 credits the semester you take the core science classes. Mix in your general education electives and lighten your load so you can focus on the science classes. Take social science and general education electives in the summer sessions, leaving sciences for the full semesters.
- Take a test prep before sitting for the required standardized tests to become familiar with the testing content and format, normally resulting in higher scores.
- Lastly, stay positive and focused on your academic goal. If not accepted the first time, try again the following year.

Remember, your advisors and professors are here to help you navigate this process. You will gain valuable knowledge and support in your journey to acceptance.
