Alcohol and Other Drug Policies Summary

Lehigh Carbon Community College has enacted several drug and alcohol policies for employees and students. These policies are reviewed annually to determine if revision is needed and ensure reflection in current practices. These policies can be accessed at several locations online and by directly contacting several offices (HR, Public Safety, Student Life, and Special Events). In this way, the College provides easy access for all members of the College community. The policies are posted for employees on the faculty and staff portal in the College Policy and Regulations Manual. The policies are posted for students in the Student Handbook, on the College website and student portal. Public Safety links provide access to the Drug-Free Campus policy as well. In addition, the facilities usage policy reinforces College alcohol and smoking policies for visitors. The drug and alcohol policies and procedures are also referenced (with direct links) in our Annual Security Report.

All listed policies and regulations identify conduct that is prohibited and the range of disciplinary and referral actions to be taken. The Drug-Free Campus, Alcohol, and Drug Abuse Prevention Program policy number 2-302, the Smoking policy number 2-306, Use of Facilities by Students, Employees, Sponsor School Districts, and Third Parties, and the Alcohol policy number 3-200. These policies also identify federal and state laws that can be applied and the appropriate disposition for violations and the health risks involved in using controlled substances.

Alcohol and Other Drug Programming Summary

Programming activities, annually scheduled events, distribution of literature and surveys.

Student Life, Athletics, Counseling and Public Safety coordinated programming efforts and activities for 2020-2022 although it was limited due to the pandemic. In addition, Counselors posted drug and alcohol info on Counseling Services webpages and flyers are available at all sites. Pamphlets with community resources and referral information are available and distributed as appropriate to students, at all sites.

Public Safety Survey

Public Safety Department conducted a two-year survey that provides a summary of reported drug and alcohol related concerns within the College. Areas surveyed are community standards, StART reports, faculty counselors, human resources, and public safety records. The report indicated number of incidents/students reported and actions taken for drug and alcohol related matters.

Revised: August 1, 2019 (Resolution 55.07)

It is the policy of the College to maintain a drug-free environment. The College is committed to protecting the safety, health, and well-being of its employees, students, and all people who come into

contact with its workplace/campus and property, and/or use its services. The College is committed to maintaining a healthy and safe environment that promotes respect for oneself and others, zero tolerance for disruptive behavior resulting from alcohol and other drug abuse, and compliance with the law. The policy is meant to encourage responsibility of individuals to themselves and each other, to establish procedures and guidelines consistent with local, state, and federal law, and to hold individuals responsible for actions that are in violation of this policy. "Illegal Drug" shall mean a "controlled substance" as defined by the Controlled Substances Act, 21 U.S.C. 812 or other relevant federal, state, and/or local laws.

The College encourages individuals to seek help with drug and alcohol problems. However, nothing in this policy is intended to limit the College's ability to take action against those who violate this policy. College officials will cooperate with federal, state, and/or local authorities to ensure compliance with drug and alcohol related laws.

The College is not responsible for any actions taken by students, employees, or volunteers who are intoxicated or are under the influence of drugs or alcohol.

As part of a campus-wide Opioid Use Disorder (OUD) awareness campaign, the college contracted with the Center for Humanistic Change (CHC) to provide Heroin and Opioid Prevention Education (HOPE) workshops across all of its campuses. To support grant functions an Opioid Prevention Educator was hired with a background in alcohol and other drug education named Molly Stanton. The Opioid Prevention educator began development on a series of permanent, asynchronous educational modules in the learning management system. Each module is around 10 minutes in length and focuses in on a single topic in opioid addiction. Faculty and staff can use these mini modules within various classes, as staff training, or simply to educate themselves.
- On January 15, 2020 there was a Service Fair where services and resources were presented to the student body including information on drug and alcohol awareness. Faculty and staff also participated. 2021

- On February 19, 2021 LCCC and the Center for Humanistic Change (CHC) sponsored the Opioid Addiction Education Forum online due to Covid-19. 293 people attended the four-hour virtual event to its conclusion. Attendees to the forum included, faculty, staff, and students from LCCC, many individuals from area school districts, concerned community members, and social workers. Continuing Education Credits (CEU) were offered for Social workers and counselors. The campus STEP Up club assisted in spreading the word among students and the club President

spoke briefly about the club's charitable and awareness-raising activities and introduced the speakers. Introductory messages were provided by Dr. Ann Bieber, President of the College. Congresswoman Susan Wild recorded a video message discussing the Federal response to the epidemic. Lisa Wolff of CHC delivered a HOPE presentation, and co-presented an interactive version of the Mock Teen Bedroom. This exciting exhibit has lain dormant during Covid, but LCCC collaborated with CHC to create fictional scenarios and present a camera shot of the bedroom. The audience was polled about where they would look and the Zoom chat discussed why and what they might find. The results video was played highlighting common hiding places, the appearance of substances, and various diversion safes. The final two speakers were Paige Roth, CRS, who works in a local hospital intervening and engaging people brought in to the ED with overdose. In addition, Emily Leonardo, CRS, who shared her personal recovery story and how she engaged addicted people in the Lehigh Valley as part of the Street Team, Feedback from the event was overwhelmingly positive as evidenced by the survey data, and the chat was consistently filled with relevant questions.

Part IV

Analysis of AOD Programming Effectiveness and Recommendations

The Awareness & Prevention Education (A & PE) Task Force was established during the fall semester of 2013. The first task for the group was to meet and determine our mission and goals. We agreed upon the following as our guiding principles:

MISSION

Enhance the College learning environment through implementation of alcohol and other drug policies, prevention education programs, and community services referrals.

GOALS

Provide two drug and alcohol awareness and prevention events annually for students and employees in each of the next two years. These would be in addition to the Wellness Fair. Evaluation will be completed by estimating attendance or audience reached.

Provide comprehensive listings of treatment or referral options available to students and/or employees for alcohol and drug issues. Promote through "College Voice", Portal, and Counseling Center.

Provide Title IX information for employees and student in the form of brochure and single page fact sheet.

Review and analyze types of incidents on campus, determine if specific intervention will need to be applied that govern the conduct of students and employees.

Determine number of student concerns reported annually. Benchmark data and monitor annually, using results to recommend policy enhancements, strengthen prevention programming and service referrals. Collect data from StART, Public Safety and Human Resources databases, review annually to determine change, and recommend AOD program enhancements as appropriate.

Recommendations for January 2023 through December 2025

It is apparent the College has increased awareness and prevention education activities in the campus community regarding alcohol and other drug use. Throughout the period of assessment for this report, the focus of these activities has been more heavily awareness building in nature, with a smaller percentage taking a more clearly educational approach. Given the participation and engagement levels demonstrated by students and employees, it appears that awareness, interest and desire to learn more about alcohol and other drug related concerns has increased. In addition, more people appear to know where to seek help on campus, and where to find the policies that govern the campus community. This observation comes from anecdotal reporting from the employees in various service departments.

1. Maintain move from an Alcohol and Other Drug Task Force to working groups that gather for specific event planning and implementation. “Effective 2018, the Awareness and Prevention Education Task Force Committee will be dissolved. Moving forward, the Director of Human Resources and Dean of Student Development, Equity and Inclusion will continue to work closely together to ensure activities and events are schedule. Ad hoc committees will be formed as needed for such things as climate surveys and the updating of the AOD Biennial Review and AOD Program Plan.” Completion of this Biennial Report will be the responsibility of the Director of HR and the Associate Dean of Student Development for feedback from those departments with traditional involvement with this project.
2. At least one AOD program should be scheduled for each semester. Alcohol and Other Drug Awareness Event and/or tabling in the cafeteria should continue and take place during the fall and spring semesters. These programs and workshops should be coordinated primarily by Counseling Services, Student Life (including student clubs and organizations), Athletics, and Public Safety with other departmental involvement as needed.
3. Continue to update the Counseling Resources, Counselor Tips, and Counseling Center webpage with community resources for Lehigh, Schuylkill, and Carbon counties.
4. Wellness Fair – should this continue at the College? Feedback from the Director of Athletics should be sought that includes feedback on vendor evaluations. If continuing with the program, seek participation of Highmark BlueShield and EAP (Employee Assistance Program) if not already involved.
5. Continue to report out information gathered by Public Safety, Community Standards, and Counseling through required reporting mechanisms and the campus website.
6. College to offer Professional Development workshops with focus on AOD topics and include in College Voice.
7. Campus Climate Survey – if possible, incorporate questions with a focus on the prevalence and incidence of any alcohol or other drug misuse and of any sexual misconduct occurring within the community. Include questions to establish what types of services and programs may be most helpful.
8. Explore AOD online awareness programs similar to the Sexual Harassment program that all employees complete.
