### Middle States Commission on Higher Education- Spring Update

Throughout the spring semester, Steering Committee chairs Jennifer Myskowski and Melanie Turrano worked on the draft of the Self-Study Report with the working groups. The chairs updated the committee on their progress during the May 1 meeting, and plan to present a draft to the Executive Team by early June.

During the May meeting, chair Betsy Swope explained the need for compliance checklists and narrative criteria to align with Middle States standards, reporting that over 550 collected documents need to be categorized and renumbered. The Steering Committee agreed to create additional supporting information folders to keep evidence organized and clean, separate from the main document folders.

Betsy Swope also discussed the progress of the compliance team's verification and their work to ensure federal guidelines are met in the SSR. Swope stressed the importance of student involvement in governance, introducing a new student organization team led by Anne Turoczy and Daniel Melin. This team will prepare students for contributing to the Self-Study process and the Middle States Conference in the fall.

The Steering Committee finished the May meeting by discussing preparations for this visit and the Middle States accreditation visit scheduled for March 15. They proposed dedicating Fall Convocation, division meetings, and a Canvas course to educate staff and faculty on Middle States as a means of preparing for the Spring semester visits.

## Faculty Action Required: Annual Academic Software Verification

As we prepare for the upcoming academic year, Information Technology is launching a critical update to our annual software request process.

**What is changing?**

In the past, faculty were only asked to submit requests for new or updated software. This year, we require all faculty members to submit a comprehensive confirmation of all software needs, including tools currently in use that you wish to retain.

**Why is this important?**

Our goal is to ensure that all faculty and students have the robust IT resources they need for a successful year. At the same time, this full audit allows the college to identify and decommission unused software to create vital operational and budgetary efficiencies.

**Action Required**

Please take a few moments to review your curriculum and complete the [Academic Software Request Form](#) with all of your academic software needs.

Thank you for your cooperation in helping us streamline our digital campus resources!
