Training/Badge Spotlight

ChatGPT Workshop
Watch the following ChatGPT Workshop from SUNY Online Teaching: A Hands-on Guide to AI Challeges and Opportunities by presenter Daniel Stanford. This workshop will examine key features, limitations, and potential uses of ChatGPT, an artificial-intelligence (AI) tool that generates original text in a variety of formats.

Important Updates/New features

## Canvas

Discussion Push Notifications

In Notifications, users can enable Push Notifications for Discussion New Topics and New Replies. To do this in Canvas go to (1) Account (2) Notifications (3) Scroll down until you get to Discussions. This is a feature that Canvas has reenabled due to the demand for it in the Canvas community.
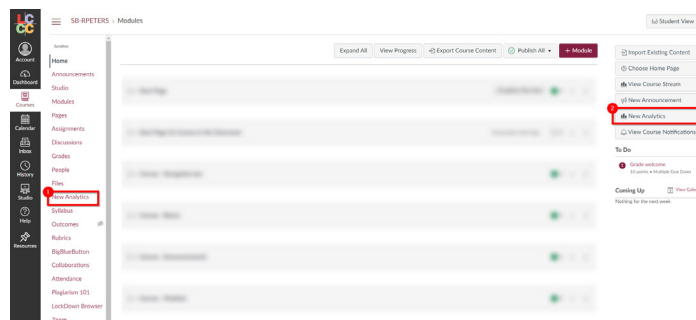

New Analytics

Enable New Analytics

Before accessing New Analytics you first need to enable it for any of your courses. Go into a course in Canvas and click on Settings. Then (1) click on the Feature Options tab, (2) next to New Course and User Analytics click on the red circle and x icon, (3) and then select Enabled. This will then create a new course navigation link on the left side of the course. It is also visable from the home area on the right side as a new button [b]. After Saturday, Dec 16th it will be available without enabling it for all Canvas courses.

Canvas Instructor Guide - New Analytics

Check out the [New Analytics section](#) of the Canvas Instructor Guide

What is New Analytics

New Analytics allows instructors to track average course grades for student submissions using an interactive chart graph or table. Data is for viewing only and cannot be changed. Data is regresed for published courses in the New Analytics dashboard every 24 hours with only active and completed student enrollments included in data for New Analytics.

Note:

- In order for New Analytics to display in Canvas, third-party cookies may need to be enabled in your browser settings
- New Analytics data does not display for unpublished courses
- Because mobile page view data is based on device settings and network connection, it may vary from the time the page views actually occurred. Page view data should not be used to assess academic integrity.
- Unposted assignments are not included in New Analytics course grade tab.
