

Technical Standards

In order to maximize the effectiveness of the Success, Engagement, Education, Determination [SEED] program for participants, the following criteria have been established to assist potential participants in determining whether or not this is the right program for them.

The following standards are considered requirements for eligibility to the program:

Academic

- Must have completed high school academic requirements
- Must have the ability to learn, work, and participate in a classroom, group, and/or work settings
- Must have functional reading and writing skills

Safety

- Must be able to independently and safely navigate the college environment, as there may not always be supervision
- Must have basic safety skills in an unsupervised setting
- Must be able to meet LCCC student code of conduct [found at <https://www.lccc.edu/student-experience/lccc-code-of-student-conduct>]

Individual

- Must have a documented disability
- Must arrange transportation to and from campus, SEED related activities, and/or work environments.
- Must be goal oriented and internally motivated
